MARRIED LIFE ON \$80 A MONTH

Mrs. Eva Leonard's Story of Married Life on \$80 a Month—Hats for Winter Are Small—Latest Blouses—Care of Shoes

Julia Osgood and John Suter discuss the matter of selecting the right life partner. Greatest amount of sound sense and cool judgment needed to affect happiness.

"Marriage is the sportiest of all human propositions," announced John Suter, with conviction.

"How is this?" asked Julia Osgood, looking up with a smile.

"Because there are a hundred chances of failure to one of success," replied John.

"I believe you are right," said Julia, and it is a pity young people can not be made to see light and cease thinking they are to live together in a garden of roses.

"My one would almost think you had had experience," chaffed the young man in his turn.

"Experience is a valuable teacher, but not the only one. I have had my eyes open for a number of years, and that being the case I have soaked in quite a little knowledge," Julia gave her head a decided toss.

"So that is the reason you are working at a desk instead of—"

"Over a washboard," interrupted Julia. "No, it is not. If the right man ever comes along I'll leave this old desk soon enough. Every woman would, but it must have an accumulation of all the virtues, and have wealth and beauty in addition," mocked Suter.

"Come now, I'm no fool. What I mean is, I propose to use as much common sense and judgment in picking out a husband as I would a hair ribbon," John laughed.

"It is no laughing matter, it's the unvarnished truth," continued the girl. "Girls who are level headed over everything else act perfectly witless over that subject."

"Oh, love will go where it is sent," answered the young man for want of a better answer.

"Bah! It's just such rot as that that is responsible for half the shipwrecks in life. Girls are taught by such rubbish that they must not use their heads in such a matter; that marriage is a thing for the heart to decide. They take it to mean that the less brains brought to bear on the subject the better," Julia's lips were curled in scorn.

"Weren't you the girl who was making a plea for love in marriage the other day?" asked John, looking up from the page he was reading.

"And why not, pray? Do you mean to infer that love and brains are an ill-assorted couple? The sooner people can get that notion out of their heads the better. Why they realize that the greatest amount of sound sense and cool judgment are needed to decide the greatest of all questions that affect happiness, there will be less heartbreak and divorce."

"Do you mean that a girl should be calculating?" queried the young man.

"Most assuredly not; neither do I think that any great thing in life should be left entirely to the emotions to decide. It is like 'getting religion' in a white heat of revival instead of calmly thinking the matter over in serious thought."

"Wouldn't your prescription do away with the majority of marriages?" asked John thoughtfully.

"About the proportion that get divorces now. The proportion that refuse to look at facts before marriage, often put on glasses to find flaws afterward."

"I believe that, all right," he replied.

"It is easy enough to understand, too. This 'happy ever after' business does not prepare one to be tolerant of imperfections, and the perfect people have all died out," Julia folded the last of her letters and started for the office.

(To be continued)

HATS MOSTLY SMALL.

The majority of the hats of the winter are small. Now and then, however, a large hat of the smartest sort is seen, says the Washington Herald. These are in velvet or velours, and like all the winter's hats, are simply trimmed. Sometimes a band of white ribbon, of satiny, kidlike finish, is the sole trimming for a big black sailor. The ribbon band spans the crown.

SQUARE BIBS ON BLOUSES.

Square revers or "bibs" fall from smart blouse fronts now. Sometimes the edge of the bib is hemstitched, sometimes it is bound with braid, or is corded all around. One pretty blouse is of blue Georgette crepe with black satin nockers outlining the square bib and covering tiny buttons that outline a V-neck opening. Above rises a choker of black satin, supporting flare wings of organdy.

CARE OF SHOES.

It is important, more important than the average woman realizes, to keep the shoes in the best of condition. One way to do this is to watch one's heels. The "lifts," as the small extra pieces that finish them are called, may be replaced as often as they wear down for about twenty-five cents a pair at any shoemaker's.

With these pieces in fine condition, one's whole shoe presents a better appearance. Rather than continually having one's shoes shined, if a small rag is dipped in olive oil and the shoes are wiped off with this every day or two, the leather will keep better and the shoes will look nice. Of course this is for black shoes, and the oil, moreover, must be rubbed in a little, not left on the leather to collect dust.

Boil a pint of cream with a stick of cinnamon and some lemon peel; take it off the fire, and pour it very slowly with the yolks of four eggs, stirring till half-cold. Sweeten, and take out the spice, and so on. Pour it into the dish; when cold, strew white powdered sugar over, and brown it with a salamander.

Another Method—Make a rich custard without sugar, boiling lemon peel in it. When cold, sift a good deal of sugar over the whole, and brown the top with a salamander.

BOHEMIAN CLUB MEMBERS DANCE.

With an attendance of nearly one hundred members and their ladies, in addition to a number of out-of-town guests, as an augury of a sufficiently large membership to justify the closing of the lists before its next party is given, the Bohemian club, Ogden's most select social organization, opened its 1915-16 season of dances at the Berthana hall Tuesday night. The affair in the entrancing environment of the Berthana, was even more enjoyable than had been anticipated and when the "Home waltz" was played, the dancers seemed to regret the quick passing of the evening. In fact, as one of the guests remarked as he bade goodby to his host at the foot of the grand staircase, it was a regular "Ogden party" which the visitor's home friends, he said, are wont to call their social affairs when a spirit of unusual good fellowship envelopes all who participate.

The membership of the club is composed of the middle aged and younger married couples of the city's first social circle, with a smaller number of debutantes and beaux who have become a welcome part of the circle through active participation in its principal social affairs of the past two seasons. This commingling of ages, which is to be a permanent feature of the Bohemian club membership on account of the fine social spirit which it has inculcated into Ogden social affairs, was noticeably appreciated last night.

The dances marked the passing of the staid old time "square" dances, but the "waltz" was appreciatively given recognition several times as the regular program and the "two step" was danced a couple of times as "extras." The major part of the program, however, was devoted to the modern dances, being divided between "one steps" and "fox trots" and it was pleasing to note that the irresistible lilt of the music for these dances took hold of every one present, making the entire program one of keen enjoyment for all.

The dances, which were neatly programmed on Bohemian club souvenir programs, were as follows, exclusive of eight extras: Waltz, one step, fox trot, one step, waltz, fox trot, one step, circle one step, moonlight waltz, fox trot, one step, one step, waltz, circle one step, fox trot, moonlight waltz, one step, one step, fox trot, home waltz. The musical selections which were played in excellent time by a large orchestra directed by Albert Erlekson, were of the latest composition, the program in its completeness being the most pleasing that the Berthana patrons have yet followed in the dance.

Delicious punch and mint wafers was served to the dancers throughout the evening and, with a fine buffet luncheon served in the banquet room, formed a most appreciated feature of the evening's entertainment. In every way, the social was one to cause the Bohemian club members, their ladies and guests to anticipate with pleasure the other events of the series. It began at 9 o'clock and closed at 1 a. m.

The members of the Bohemian club most of whom, with their ladies, were present, are as follows:

H. G. Adams, Henry Anderson, Jack Browning, R. C. Blackman, R. E. Bristol, Dr. Frank K. Bartlett, M. S. Browning, Dr. Mark Brown, Ray Boyle, Will Burt, LeRoy Buchmiller, C. A. Boyd, W. D.
